START TIME: _____ **FINISH TIME** _____

ACTUAL TIME ON PASSAGE	mins	<p style="text-align: center;">PASSAGE RACE NOTES</p> <p>It is up to individual skippers when they start their passage, but they must finish by 19:00 BST on Saturday August 21st.</p> <p>Engines or sweeps may be used to plug a foul tide or maintain progress in a calm, but twice the time under power is added to the time on passage as a penalty! Navigable distance is the shortest possible route along the specified course, if you have to sail further because of tacking that is your hard luck!</p> <p>If you have a foul tide (which we assume runs at 1.5 knots) we add to the navigable distance, or fair one we take the equivalent away.</p> <p>The winner is the boat with the best average speed on passage, after taking into account the handicap.</p> <p>Hand this declaration into registration as soon as you are ashore to Avola / Transcur.</p> <p>Have an enjoyable trip!</p>
